Deadline for manuscript submissions:

closed (30 December 2024)

Message from the Guest Editor

Dear Colleagues,

Obesity is described as a frequent, severe, complex, recurrent and chronic process that represents a major public health problem. It is a disease in which there is an excessive accumulation of fat that can have negative effects on health and decrease life expectancy.

Advised treatments include behavioral interaction based on changes that the family should address in several components: diet, physical activity, sedentary behavior and sleep quality. Although advances have been made in the treatment of obesity, the expected changes in overweight children and adolescents from low- and middle-income countries are not occurring. The aim of this Special Issue is to propose new strategies such as lifestyle changes that lead to significant changes in body composition, biochemical markers and other health parameters.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
