Message from the Guest Editor

The aim of this Special Issue is to produce a rich collection of research, articles, and opinions for clinicians, academics, and policy makers in the field of Pediatric Cardiology. Contributions involving all aspects of this topic and, in particular, the understanding, management, and improvement of **cardiovascular diseases in children** will be welcomed.

Our work will be based on an interdisciplinary approach to disseminate advanced knowledge and evidence with the aim to improve pediatric cardiovascular care. High-quality papers in all areas of pediatric cardiology will be handled through a fair and rigorous peer review process.

Innovative papers on new cardiovascular treatments, prognostic indicators, and imaging techniques, as well as studies focused on the impact of disruptive events (i.e., the COVID-19 pandemic), are particularly welcomed. Finally, we also encourage papers focused on cardiovascular diseases in specific populations, such as, for example, low-income countries in which pediatric care is seriously impacted by the overall situation.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
