Message from the Guest Editors

Dear Colleagues,

The prevalence of neurodysfunctions in pediatric populations is relatively high, compared to defects of other systems. This is linked to the fact that the development of the specific structures of the nervous system occurs over a relatively long period of time, during which the processes are affected by harmful factors. It may be difficult to accurately identify the cause, even in half of the children affected by the condition. The dysfunctions of the nervous system may have an impact on locomotion, somatic growth, and cognitive and social development. Therefore, children and adolescents with neurodysfunctions require continuous, comprehensive rehabilitation, covering not only motor functions but also mental and social ones. We invite the submission of original research manuscripts as well as review articles and case studies that address somatic, motor, and cognitive development disorders in children and also those that address neurorehabilitation in children with neurodysfunctions.

We look forward to receiving your submissions for this Special Issue.

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

Journal Rank: JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
