Deadline for manuscript submissions:  
**closed (15 May 2022)**

### **Message from the Guest Editor**

Dear Colleagues,

Fractures are extremely common in children. The fracture risk in boys is 40% and 28% in girls. Although many pediatric fractures are frequently regarded as “innocent” or “forgiving”, typical complications do occur in this precious population, e.g., premature physal closure and post-traumatic deformity, which may cause life-long disability.

The main goal of this Special Issue of Children is to help fill the gap of undiscovered knowledge and improve the scientific understanding of pediatric fractures. Authors are invited to contribute to this Special Issue with original papers and reviews on all aspects related to pediatric fractures, including the diagnosis, treatment, or follow-up of common fractures. Authors are also encouraged to submit papers on specific pediatric injuries, as well as vulnerable populations such as children with bone disease. We also welcome articles that discuss important advancements and novel interventions on closely related topics, including high-energy trauma, perioperative care, and complication management.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
