University of Cincinnati,  
Cincinnati, OH 45221, USA

Deadline for manuscript  
submissions:

**closed (31 October 2020)**

### Message from the Guest Editors

Pediatric pain management has made strides over the past years. Considering the negative effects of acute and chronic pain on youth and the associated challenges, we must strive to improve pain management approaches for the vulnerable populations. The effects of acute pain experiences can last a lifetime and negatively affect subsequent pain experiences and wellbeing. Chronic pain is related to extended periods of pain and suffering and has wide effects on functioning across physical, social, emotional, and cognitive domains. The Special Issue is to highlight the scientific understanding of factors that influence pain management, and advances in treatment approaches for acute or chronic pain across a variety of settings. We invite papers focused on neonates through emerging adults, and both healthy and clinical samples. We welcome reviews and original research focused on novel interventions, and those that identify gaps in knowledge. Submissions that focus on key outcomes related to pain management, such as sleep, fatigue, and cognitions are also welcome, as are process evaluations that describe the development of methods that will advance the treatment of acute or chronic pain.

## Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
