

## Special Issue

# 10th Anniversary of *Children*: Pediatric Dentistry Progress

### Message from the Guest Editors

The aim and scope of our Special Issue is to promote research in all aspects of pediatric dentistry, including interceptive orthodontics and studies on children and young adults with special needs. Works on oral pathologies, orthodontic and orthopedic early treatments, maxillo-facial surgery, otolaryngology procedures, reconstructive dentistry as well as sleep apnea syndrome treatment will all be well received. The Special Issue focuses on the publication and critical evaluation of clinical and basic science research. Studies with innovative approaches or providing original information are of higher priority. In this regard, we are delighted to invite investigators to submit original research articles (trials, cohort studies, case-control and cross-sectional studies), high-quality case reports, communications and reviews (narrative or systematic reviews and meta-analyses) in accordance with the fields previously indicated. Keywords

- early treatment
- pediatric dentistry
- growing problems
- skeletal anomalies
- pediatric oral neoformation

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
