

## Special Issue

# Pediatric Orthopedic Injuries: Diagnosis and Treatment

### Message from the Guest Editors

Pediatric orthopedic injuries present a unique challenge in both diagnosis and treatment, demanding specialized knowledge and a tailored approach. Children's growing bodies and developing musculoskeletal systems require precise and often innovative medical strategies to ensure optimal outcomes and long-term health. This Special Issue, "Pediatric Orthopedic Injuries: Diagnosis and Treatment", seeks to bring together the latest research, clinical advancements, and expert insights in the field. By exploring a range of topics from acute trauma management to long-term rehabilitation, this compilation aims to enhance understanding and improve the quality of care for young patients. We hope that the diverse contributions within this issue will inspire further advancements and collaboration in pediatric orthopedic medicine, ultimately benefiting the children who rely on our expertise.

### Guest Editors

Dr. Ioan Sarbu

2nd Department of Surgery–Pediatric Surgery and Orthopedics,  
"Grigore T. Popa" University of Medicine and Pharmacy, 700115 Iași,  
Romania

Dr. Calin M. Popoiu

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
