# Current Developments and Future Trends in Congenital Heart Diseases Interventional Cardiology and Cardiac Surgery

### Message from the Guest Editors

The advances and progress technology of interventional cardiology and cardiac surgery have improved the prognosis and the life expectancy of the patients with congenital heart diseases (CHDs). The aim and scope of this Special Issue is to highlight the current developments and future trends in congenital heart diseases interventional cardiology and cardiac surgery. This Special Issue supports high quality research in this field. The journal suggests publishing original research; however, even metanalysis, systematic review, experts' review, or original case series are relevant. Original research on the comparison of interventional versus surgical treatment of some CHD or the long-term follow-up of recent interventional or surgical approaches is particularly relevant.

### **About the Journal**

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

### **Author Benefits**

### **Open Access**

 free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC. Embase, and other databases.

### **Journal Rank:**

JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
