Changes in Adolescents' Brains and Behaviors: Implications for Mental Health

Message from the Guest Editors

It is a pleasure for us to invite you to cooperate on this Special Issue entitled “Changes in adolescents’ brains and behaviors: implications for mental health”.

This Special Issue focuses on adolescents’ mental health and aims to deepen both biological and environmental factors predisposing the emergence of psychopathology during adolescence, with a specific attention on sleep as a mediating factor and on new therapeutic strategies.

Therefore, we invite colleagues to present original research, case reports and series and review papers on this essential research topic.

We are looking forward to your contributions.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
