

Special Issue

Social and Environmental Determinants of Health Care and Outcomes Among Children with Cancers

Message from the Guest Editors

We are pleased to invite you to contribute to an upcoming Special Issue of the journal *Children*, titled “Social and Environmental Determinants of Health Care and Outcomes Among Children with Cancers”. Children diagnosed with cancer face not only the direct effects of their disease and treatments but also the broader social and environmental conditions of the communities where they live. Factors such as socioeconomic resources, access to medical care and community services, social support, and environmental exposures can significantly influence health outcomes across the cancer care continuum. Understanding how these conditions interact with genetic predisposition and biological mechanisms is essential in improving survivorship, reducing disparities, and enhancing quality of life for pediatric cancer populations.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
