Pediatric Sleep Medicine: A Look Back and a Look Ahead

Message from the Guest Editor

Recent decades have witnessed profound advancements in pediatric sleep medicine, particularly underscoring the indispensable role of sleep in the holistic well-being of children. This Special Issue, “Pediatric Sleep Medicine: A Look Back and a Look Ahead”, aims to illuminate emergent paradigms and avant-garde innovations within this discipline. The compilation will accentuate the empirical insights and scholarly endeavors of clinicians and investigators dedicated to pediatric sleep disorders. The accurate identification and therapeutic management of pediatric sleep disorders are imperative to avert the potential cognitive, behavioral, and somatic repercussions associated with these conditions. Furthermore, this Special Issue explores prospective clinical and pharmacological research trajectories. The continual evolution of research, interdisciplinary collaboration, and a comprehensive, multi-faceted approach will markedly enhance the health outcomes for children contending with these complex pathologies.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
