

Special Issue

Research in Rehabilitation for Children with Motor Disability

Message from the Guest Editors

The aim of this Special Issue is to collect the most recent evidence on assessments and rehabilitative interventions for neuromotor disabilities in children. The manuscripts may include submissions of any format (e.g., original article, case report, review or systematic review) that may contribute to this goal. This includes, but is not limited to, manuscripts on cerebral palsy, neuromuscular diseases, ataxic or dyskinetic disorders, and congenital abnormalities. Equally important will be the inclusion of reports or protocols about correlating clinical features and defining functional profiles, which may help in developing targeted approaches in the future. We look forward to receiving your contributions.

Guest Editors

Prof. Dr. Adriano Ferrari

Faculty of Medicine, University of Modena and Reggio Emilia, Modena, Italy

Dr. Silvia Faccioli

IRCCS Local Health Unit of Reggio, Children Rehabilitation Unit, Reggio Emilia, Italy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

Author Benefits
