Research on the Academic Motivation of Children and Adolescents

Message from the Guest Editors

Academic motivation is a vital component of a child's or adolescent's academic success. Motivation drives learning, and when students are motivated, they are more likely to be engaged in their learning, persist through challenging tasks, and achieve their academic goals. Therefore, it is important to understand the factors that contribute to academic motivation and how to enhance it. The purpose of this call for papers is to solicit original research on the academic motivation of children and adolescents.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
