

Special Issue

Innovations in the Family Care of Children with Chronic Illnesses

Message from the Guest Editors

We are excited to announce a special issue of *Children* and cordially invite you to contribute your scholarly papers. This Special Issue will focus on the critical theme of “Innovations in the Family Care of Children with Chronic Illnesses,” which merits deeper exploration and understanding in pediatric healthcare. The impact of chronic illness on children is profound, not only affecting the child but also the entire family unit. Given this background, this Special Issue aims to shed light on new methods, strategies, or research findings related to the care provided by families for children with chronic illnesses. We believe your contributions can greatly enhance our understanding of these complex interactions. We are particularly interested in empirical studies encompassing qualitative, quantitative, and mixed methods methodologies, as well as systematic reviews, meta-analyses, case studies, and innovative approaches that delve into the psychological, social, and emotional aspects of family functioning in pediatric chronic illness.

Guest Editors

Dr. Fernanda Machado Silva-Rodrigues

Dr. Michelle Darezzo Rodrigues Nunes

Dr. Cynthia A. Danford

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
