

## Special Issue

# Advances in Pediatric Gastroenterology (2nd Edition)

### Message from the Guest Editors

Last year, we successfully proposed a Special Issue on “Advances in Pediatric Gastroenterology”. We are excited to invite you to contribute to the second edition of this Special Issue titled “Advances in Pediatric Gastroenterology.” The field of pediatric gastroenterology is continually evolving. Pediatric patients face a wide range of gastrointestinal and liver diseases, varying from asymptomatic or mild conditions to severe and potentially life-threatening issues. In recent years, significant advancements have been made in basic science research, diagnostics, and treatment related to pediatric gastroenterology. However, many gaps still exist in our understanding of the pathogenesis, diagnostics, and management of these diseases. This Special Issue of *Children* aims to gather and publish original research articles and reviews that highlight recent advances in these areas of pediatric gastroenterology. Given your expertise in this field, we are pleased to invite you to contribute to the upcoming Special Issue. We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA
