

Special Issue

Prevention of Cardiovascular Diseases in Children and Adolescents

Message from the Guest Editor

We invite you to submit your research to the Special Issue "Prevention of Cardiovascular Diseases in Children and Adolescents" hosted by *Children*. This Special Issue will focus on early interventions, risk factors, lifestyle changes, and innovative strategies aimed at reducing cardiovascular risk beginning in childhood. Establishing cardiovascular health in young populations is crucial to improving long-term outcomes. We welcome a wide range of studies in epidemiology, clinical research, public health, behavioral sciences, and translational research. By gathering global insights and evidence-based approaches, this Special Issue seeks to support health practitioners, researchers, and policymakers in developing effective strategies to promote cardiovascular health in children and adolescents.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
