

## Special Issue

# Metabolic and Nutritional Diseases in Children

### Message from the Guest Editor

It is my great pleasure to invite you to contribute to this Special Issue of *Children* on “Metabolic and Nutritional Diseases in Children”. In pediatrics, metabolic and nutritional diseases encompass a broad group of pathological entities. From the most common food protein allergies and disaccharide intolerances to the rarest metabolic diseases, this group of pediatric illnesses negatively impacts the health, growth, and quality of life of affected children. In recent decades, advances in molecular testing, endoscopic procedures, and imaging have led to increased awareness and diagnosis of metabolic and nutritional diseases. This Special Issue of *Children*, “Metabolic and Nutritional Diseases in Children”, aims to include research that will advance current knowledge in the field of metabolic and nutritional diseases. The papers need to explore diagnostic challenges, present new techniques, or validate existing tools that assess metabolic and nutritional diseases and provide new insights into how therapeutic interventions can improve health, growth, and quality of life in children with metabolic and nutritional diseases.

### Guest Editor

Dr. Corina Pienar

Department of Pediatrics, “Victor Babes” University of Medicine and Pharmacy, Timisoara, Romania

### Deadline for manuscript submissions

closed (10 May 2024)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400  
Keene Street, Columbia, MO 65211, USA
