

Special Issue

10th Anniversary of *Children*: Feature Papers in Pediatric Surgery

Message from the Guest Editors

We are celebrating the 10th anniversary of *Children* with a Special Issue in the Section “Pediatric Surgery” in 2023. Pediatric and fetal surgery are offered in many tertiary care centers around the world. Over the past 30 years, a growing spectrum of postnatal and prenatal minimally-invasive surgical approaches have helped to save the life or improve postnatal quality of life of thousands of patients. Spreading the word about the latest techniques and their outcomes will aid in saving numerous more. We warmly invite original research, state-of-the-art reviews, perspectives, and seminal case reports covering all aspects of pediatric surgery and fetal surgery, among them ethics, pain management, perioperative management, surgical techniques, amniotic insufflation, benefits and risks, maternal and child outcome, as well as, experimental developments.

Guest Editors

Prof. Dr. Thomas Kohl

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
