

Special Issue

Advances in Pediatric Anesthesia, Pain Medicine and Intensive Care (2nd Edition)

Message from the Guest Editor

Research on anesthesia, pain therapy and critical care in the pediatric field is very topical. The thought that a dedicated curriculum is needed for those involved in pediatrics is increasingly gaining strength and authority, since the knowledge and skills acquired in the field of adults cannot be translated automatically. Considering the success and popularity of the Special Issue “Advances in Pediatric Anesthesia, Pain Medicine and Intensive Care” previously published in the journal *Children*

(https://www.mdpi.com/journal/children/special_issues/J4VZAJW640), we now release a second edition that aims to welcome all original research manuscripts, meta-analyses, and new reviews dealing with the issues of anesthesia, pain therapy and critical care in the pediatric field. In particular, there will be greater attention given to articles concerning perioperative medicine, which by its very definition involves the above three branches covered in the Special Issue.

Guest Editor

Dr. Alessandro Vittori

Department of Anesthesia and Critical Care, ARCO ROMA, Ospedale Pediatrico Bambino Gesù IRCCS, Piazza S. Onofrio 4, 00165 Rome, Italy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA

Author Benefits
