Addressing Challenges in Child Mental Health: Research and Strategies for Comprehensive Development

Message from the Guest Editors

Childhood mental health is a critical issue that has garnered global research attention. Currently, children and young people face significant challenges in their mental health, with profound effects on their well-being and development. Understanding these issues and their impact on children and the youth population is crucial to effectively addressing mental health needs. This monograph addresses the importance and urgency of researching these topics, highlighting how attention to childhood mental health has become an internationally recognized issue. We will explore current challenges and strategies with which to improve the mental health of children and young people in a global context.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA
