New Insights in Pediatric Optometry and Vision Science

Message from the Guest Editors

Dear Colleagues, We are pleased to invite you to contribute to our upcoming publication on "New Insights in Pediatric Optometry and Vision Science." This initiative aims to drive novel research to understand the eye and visual system, prevent and treat vision diseases. As the field continues to evolve rapidly, collaboration in vision research and clinical care is crucial to develop new ideas and share knowledge across other fields. We believe that your expertise and research can make a significant contribution to this endeavor. We welcome submissions on various topics related to pediatric optometry and vision science, including but not limited to:

- Pediatric eye diseases.
- Early visual development and its long-term impact on ocular health.
- Screening and diagnostic strategies for visual conditions in children.
- Characterization of ocular parameters based on refractive errors in children.
- Ocular and environmental factors associated with eye growth in childhood

These are just examples, and there are many other topics that could be explored within the realm of pediatric optometry and vision science for such a special edition.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
