

## Special Issue

# Advances in Rehabilitation of Children with Disabilities

### Message from the Guest Editors

Therapeutic interventions for children and youth with disabilities have evolved substantially over the past 15 years. The paradigm shift has primarily been driven by our addressing the underlying symptoms and impairments to improve function (through unimodal models and therapist-centred approaches), and our focusing on training programs for activities and tasks that are relevant to children in order to target full participation (through multimodal models with child-centred goals, more active practice, and individual adaptations of the task and environment). How are therapeutic approaches for children with disabilities evolving today? The aim of this Special Issue is to provide a comprehensive and innovative overview of developments in clinical and translational research on new advances in the assessment and treatment of children with disability, promoting the highest standards of care and support for children and their families.

### Guest Editors

Prof. Dr. Javier Güeita Rodríguez

Physical Therapy, Occupational Therapy, Rehabilitation and Physical Medicine Department, Rey Juan Carlos University (URJC), Madrid, Spain

Prof. Dr. Domingo Palacios-Ceña

Department of Physical Therapy, Occupational Therapy, Rehabilitation and Physical Medicine, Universidad Rey Juan Carlos, 28922 Alcorcón, Madrid, Spain

### Deadline for manuscript submissions

closed (31 August 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
