

Special Issue

Clinical Advances and Perspectives on Neonatal Surgery

Message from the Guest Editor

As of the Special Issue entitled “Clinical Advances and Perspectives on Neonatal Surgery”, it is with great pleasure that I invite you to submit your works to *Children*. As we all know, the advancement of diagnostic techniques and surgical methods has enabled many malformations and neonatal conditions to be properly managed. The technical surgical aspects have been implemented together with a more comprehensive knowledge of the fetal and neonatal physiology, thus allowing for substantially improved outcomes of many neonatal surgical conditions. This Special Issue aims to collect and share the most recent clinical and research advancements in the treatment of those malformations that require prompt and skilled surgical expertise.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
