

Special Issue

Allergic Rhinitis in Childhood

Message from the Guest Editor

For this Special Issue, Dr. Chawes invites contributions in the form of original articles and reviews to an article collection on allergic rhinitis in childhood not limited to the following themes: 1) the natural history of allergic sensitization, nonallergic and allergic rhinitis during childhood; 2) lifestyle and environmental risk factors for the development of allergic rhinitis in childhood such as air pollution, greenness, tobacco smoke exposure, indoor allergens, respiratory infections, and the microbiome; 3) the role of dietary factors as preventive measures, including breastfeeding, formula feeding, and dietary supplements such as vitamin D; 4) the role of omics for endotyping allergic rhinitis, including genetics, gene expression, epigenetics, pharmacogenomics, and metabolomics; 5) the treatment of allergic rhinitis, including immunological targets for treatment and allergen immunotherapy; and 6) treatment barriers and measures to increase adherence.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
