

Special Issue

Anxiety Disorders in Children

Message from the Guest Editors

This Special Issue offers a unique opportunity to contribute to a state-of-the-art series on anxiety disorders in children and young people, including but not limited to the following major areas: epidemiology and developmental trajectories, causation (including family-based risk factors with cross-generational influences and intergenerational transmission), psychological and pharmacological treatments, newer concepts like parental health anxiety by proxy, and child health-related fear in the face of the global pandemic of COVID-19. I am delighted with the initiative taken by *Children* to launch this Special Issue. *Children's* 2019 Journal Impact Factor is 2.078, and it is ranked 50 out of 128 journals in the category of Pediatrics. Submissions from experts in child anxiety disorders—clinicians and researchers—around the world are welcome. Manuscript formats can vary from literature reviews (systematic literature reviews and meta-analyses or narrative reviews) to original research (clinical trials, cohort studies, experimental lab work, case-control studies, qualitative studies), as long as they are of high quality and advance the field within childhood anxiety.

Guest Editors

Prof. Dr. Heather Macalister

Department of Psychology, Mary Baldwin University, Staunton, VA 24401, USA

Prof. Charlotte Ulrikka Rask

Department of Child and Adolescent Psychiatry, Aarhus University Hospital, Aarhus, Denmark

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
