

Special Issue

Telehealth and Home-Centered Approaches for Children and Adolescents

Message from the Guest Editors

This Special Issue will explore the multifaceted applications of telehealth and home-centered approaches in pediatric care, from technological advancements to policy implications and clinical outcomes. We seek to gather comprehensive research that assesses the effectiveness, challenges, and potential of telehealth and home-centered approaches for children and adolescents.

We invite contributions presenting innovative research, case studies, systematic reviews and meta-analyses, including, but not limited to, the following:

- Technological innovations in telehealth for children and adolescents;
- Impact of telehealth and home-centered approaches on healthcare accessibility and equity;
- Clinical outcomes and patient satisfaction in pediatric telehealth;
- Policy and regulatory challenges in the implementation of telehealth;
- Telehealth applications in mental health services for children and adolescents.

We welcome submissions from researchers around the globe on this timely and impactful topic.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
