

Special Issue

Children with Complex Health Care Needs

Message from the Guest Editor

Patients with multiple chronic conditions occupy a growing percentage beds in children's hospitals and utilize a disproportionate share of health care resources. Greater attention to this population has the potential to improve quality of care and simultaneously reduce its cost.

In this Special Issue in *Children* we focus on children with medical complexity. We seek to assemble a collection of reviews exploring the care of this important group of children.

We look forward to receiving your contributions. We are interested in the medical care of this population, as well as social and epidemiological aspects.

Guest Editor

Prof. David E. Hall

Program for Children with Medically Complex Needs, Department of Pediatrics, Monroe Carell Jr. Children's Hospital at Vanderbilt University, Nashville, TN, USA

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
