Children's Public Health and Healthcare: Global Perspective and New Trends

Message from the Guest Editor

As public health challenges become increasingly complex and interconnected, understanding the unique aspects of children's health needs and creating innovative interventions have never been more critical. In this Special Issue, we aim to explore evolving trends and gain insight into children's health within a global context. We would like to invite you to contribute original research papers, reviews, and case studies that shed light on current children's health perspectives, innovative health interventions, and emerging trends in children's health beyond hospital care. This Special Issue seeks to compile a comprehensive collection of perspectives to enhance our understanding and inform better practices and policies to improve children's health outcomes globally. Whether your focus is on preventive strategies, clinical outcomes, or policy implications, we welcome your contributions to this vital collection. Your contribution will help shape the future of children's public health and healthcare.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
