

Special Issue

Gut Microbiota and Metabolic Health in Children

Message from the Guest Editor

This Special Issue encompasses studies of the human gut microbiota and its impact on children's health and disease. Studies on the development of non-communicable diseases, central obesity/obesity, neurodevelopment, and gastrointestinal, immunological, inflammatory, and metabolic disorders; on the interaction of diet and the environment; novel studies using applied technologies; and on the biological-causal mechanism of the effect of the intestinal microbiota on health and disease in children will be considered for publication.

Guest Editor

Dr. Ana Isabel Burguete-Garcia

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
