Advances in Oral Health and Dental Care of Children: Update

Message from the Guest Editor

Dear Colleagues I am delighted to serve as of a Special Issue of *Children* entitled “Advances in Oral Health and Dental Care of Children”. Pediatric dentistry includes knowledge of the diagnostics, clinical and instrumental factors, pathophysiology and preventive and therapeutic aspects of dental pediatric patients. The objectives to be pursued are the identification of advanced diagnostic pathways which can help to define the various types of oral diseases in the developmental age and the acquisition of specific skills for prevention, interception and treatment. The goal of this Special Issue is to discuss any aspects of oral health with a multidisciplinary approach, using new technologies and digital systems. We are seeking submissions of review articles, original research and contributions developed with innovative methods. Thank you in advance to all those who submit a contribution.

Guest Editor

Dr. Angela Militi

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
