

## Special Issue

# Prevention and Treatment of Diet-Related Diseases Among Children and Adolescents

### Message from the Guest Editors

We invite you to collaborate on a Special Issue titled "Prevention and Treatment of Diet-Related Diseases Among Children and Adolescents". Recent research highlights the crucial role of adequate nutrition in preventing and treating diet-related diseases. Early dietary intervention can significantly improve the prognosis of diseases such as obesity, type 2 diabetes, metabolic disorders, food allergies, and autoimmune diseases. This planned Special Issue aims to create a reliable and up-to-date collection of knowledge to support healthcare professionals, including doctors, dietitians, and nutrition specialists. We encourage you to share your clinical and scientific expertise, present effective dietary therapy strategies, and discuss the latest nutritional guidelines. We rely on your expert insight and valuable contributions. Your articles will play a crucial role in spreading knowledge and support for professionals working with the health of our youngest patients.

### Guest Editors

Prof. Dr. Anna Harton

Prof. Dr. Danuta Gajewska

Prof. Dr. Małgorzata Kostecka

### Deadline for manuscript submissions

31 December 2025

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
