## Advance in Childhood Sports Rehabilitation

## Message from the Guest Editor

Rehabilitation treatments are at a turning point thanks to the emergence of new disruptive technologies and the integration of advances in neuroscience. This is especially relevant in specialties such as physiotherapy, and even more so in pediatric physiotherapy. As a result of these changes, this Special Issue is promoted with the aim of updating the scientific knowledge available on rehabilitation and physiotherapy treatments during childhood for specific problems of this vital stage or to address health problems that can occur at any age but in which, for their treatment during childhood, certain particularities of this stage must be taken into account. For all of the above, this Special Issue is open to the publication of scientific articles such as systematic reviews with meta-analyses and experimental research.

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA

### **Author Benefits**

### **Open Access**

 free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC. Embase, and other databases.

### **Journal Rank:**

JCR - Q2 (Pediatrics) / CiteScore - Q2 (Pediatrics, Perinatology and Child Health)
