Malnutrition and Infectious Disease in Children: Epidemiology and Global Impacts

Message from the Guest Editor

We are pleased to announce a new Special Issue, titled “Malnutrition and Infectious Disease in Children: Epidemiology and Global Impacts”, in *Children*, a peer-reviewed scientific journal [impact factor: 2.0; Cite Score: 2.7].

Malnutrition and infectious diseases remain among the most pressing global health challenges affecting children, particularly in low- and middle-income countries (LMICs). Undernutrition, micronutrient deficiencies, and recurrent infections create a vicious cycle that weakens immune function, increases the disease severity, and impairs children’s growth and development.

This Special Issue provides a platform for cutting-edge, multidisciplinary research on the epidemiology, prevention, and management of malnutrition and infectious diseases in children.

We particularly welcome studies that are at the intersection of nutrition, infectious disease burden, and child development, as well as research on novel therapeutic approaches, community-based interventions, and advancements in public health strategies.

We look forward to your contributions and insights to advance our knowledge and improve child health outcomes worldwide.

Guest Editor

Dr. Israt Jahan

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
