

## Special Issue

# Current Treatment of Pediatric Bowel Diseases

### Message from the Guest Editor

Pediatric bowel diseases include a broad spectrum of inborn and acquired disorders with a high impact on quality of life. Treatment guidelines for pediatric bowel diseases are often missing due to limited evidence. This Special Issue intends to give the reader an update on pediatric bowel disorders with a special focus on surgical and non-surgical treatment options as well as the transition period from childhood to adulthood. Clinical, basic science, and translational studies related to pediatric bowel diseases are welcome. What kind of papers we are soliciting: Studies addressing pathophysiology, epidemiology, and/or treatment (including confirmation or refutation of conventional therapies, novel treatments, and treatment guidelines) are highly appreciated.

### Guest Editor

Prof. Dr. Stefan Holland-Cunz

Department of Pediatric Surgery, University Children's Hospital Basel, 4056 Basel, Switzerland

### Deadline for manuscript submissions

closed (30 September 2023)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
