

Special Issue

Infant and Early Childhood Nutrition

Message from the Guest Editors

We are pleased to announce a new Special Issue entitled “Infant and Early Childhood Nutrition” in *Children*, a peer-reviewed scientific journal indexed in the Science Citation Index Expanded (SCIE) and Social Sciences Citation Index (SSCI). The latest released impact factor for this journal is 2.4 (Journal Citation Report, 2022 Edition). Nutrition is a milestone in the development of infants and children, especially in critical developmental stages such as breastfeeding and complementary feeding. Nutrition is an epigenetic factor that can modify the natural history of numerous non-communicable diseases. Moreover, nutrition in critical development stages can also facilitate taste development and food-related behavior. This Special Issue welcomes original research articles presenting quantitative or qualitative data, as well as reviews addressing nutritional issues in infancy and early childhood.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
