

Special Issue

Pediatric Oral and Facial Surgery: Advances and Future Challenges

Message from the Guest Editors

This Special Issue aims to explore current challenges, innovations, and future directions in pediatric oral and facial surgery. We welcome the submission of cutting-edge research on surgical techniques, craniofacial conditions, digital technologies, perioperative care, the psychosocial aspects of pediatric surgical care, and multidisciplinary treatment with physiotherapy in pre- and postoperative care in pediatric oral and facial surgery, especially studies addressing clinical impact and translational relevance. We welcome the submission of original research articles, reviews, and case reports that offer novel insights or comprehensive overviews of emerging trends in pediatric oral and facial surgery. If you are interested in submitting to this Special Issue, please feel free to contact me. I would also appreciate it if you could share this invitation with colleagues who may wish to contribute.

Guest Editors

Dr. Rocío Trinidad Velázquez-Cayón

1. Oral Medicine and Phototherapy Research Group—OMEP, Faculty of Health Sciences, Department of Dentistry, Fernando Pessoa Canary Islands University, 35450 Gran Canaria, Spain

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
