

## Special Issue

# Diagnosis, Treatment and Prognosis of Surgical Diseases in Children

### Message from the Guest Editors

It is my great honor to serve as a guest editor of this Special Issue of *Children* entitled *Diagnosis, Treatment, and Prognosis of Surgical Diseases in Children*. Surgical diseases in infancy and childhood encompass a wide range of conditions including congenital disorders, acquired/infectious diseases, trauma, and pediatric oncology. A thorough understanding of the presentation, diagnosis, treatment, post-operative management, and follow-up/transitional care is imperative for practitioners of various specialties to maintain a high standard of care, providing optimal outcomes for our patients. The goal of this Special Issue is to present original research, reviews, clinical studies, brief reports, case reports, and editorials covering the advances and innovations in diagnostic approaches, multidisciplinary management, and translational and basic research regarding surgical diseases in infancy and childhood. I look forward to receiving your contributions.

### Guest Editors

Dr. Yi-Ting Yeh

Pediatric Surgery Division, Taipei Veterans General Hospital, Taipei, Taiwan

Prof. Dr. Chin-Su Liu

Division of Pediatric Surgery, Department of Surgery, National Yang-Ming University, Taipei, Taiwan

### Deadline for manuscript submissions

closed (25 October 2022)

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.
