

## Special Issue

# Selected Papers from the OASIS (Holistic Care in Hirschsprung's Disease) Meeting

### Message from the Guest Editor

Hirschsprung Disease (HSCR) is a rare condition affecting the motility of the enteric system and resulting in obstruction of the bowel. Its most severe form, Total Colonic Aganglionosis (TCA), occurs in 2–5 % of all children with HSCR. At the OASIS Symposium, clinicians, researchers and patients (representatives) from all over Europe will work together on a holistic approach to care. There will be a particular focus on:

- Patients and Family needs before and after surgery;
- Patient support groups for Hirschsprung's Disease in Europe as well as ideas for cross-collaboration;
- Diagnostic pathways;
- Surgical Strategies in Hirschsprung' Disease and total colonic aganglionosis;
- Optimal bowel management;
- Holistic Continence Score;
- Nutrition and Microbioma;
- Quality of life aspects; longitudinal follow up;
- Transition of care.

More information please contact us:

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children’s health. We would be pleased to welcome you as one of our authors.
