

## Special Issue

# Current Advances in Paediatric Sleep Medicine (2nd Edition)

### Message from the Guest Editors

Due to the success and enthusiastic response to the first edition of our Special Issue, entitled “Current Advances in Paediatric Sleep Medicine”, we cordially invite you to report on your further findings relating to all areas of paediatric sleep medicine and psychology.

With the second edition of our Special Issue, we aim to move closer to the goal of better understanding the connection between sleep and health in children and being able to recognise and influence it as part of evolutionarily determined chronological rhythms.

We welcome informative case reports, case series, randomised studies, epidemiological data, systematic reviews, study designs, and references to your own research that show how the methodological approach to the phenomenon of children's sleep has evolved.

We look forward to receiving your submissions.

---

### Guest Editors

Prof. Dr. Ekkehart Paditz

Centre for Applied Prevention/Zentrum für Angewandte Prävention,  
01307 Dresden, Germany

Prof. Dr. Silke Anna Theresa Weber

## About the Journal

### Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA
