

Special Issue

Lung Function, Respiratory and Asthma Disease in Children

Message from the Guest Editors

It is a pleasure to invite you to contribute to this Special Issue dedicated to respiratory diseases; in particular, asthma and lung function in children. The exponential increase in the prevalence of asthma and severe asthma in children is one of the reasons for which clinical activity and research studies are currently focusing on respiratory diseases and the monitoring of respiratory function in children. The most recent challenge is SARS-CoV-2 infection and the monitoring of possible long-term consequences in children. In this Special Issue, we aim to collect valuable updates on these topics from various experts.

Guest Editors

Prof. Dr. Ahmad Kantar

Pediatric Asthma and Cough Centre, Istituti Ospedalieri Bergamaschi, University and Research Hospitals, Bergamo, Italy

Dr. Michele Ghezzi

Allergology and Pneumology Unit, V. Buzzi Children's Hospital, 20154 Milan, Italy

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.
