

Special Issue

Recent Advances in Diagnosis and Treatment of Neuroblastoma

Message from the Guest Editor

Neuroblastoma is a tumor marked by wide biologic variability and is disproportionately represented in childhood cancer deaths. This Special Issue will highlight recent advances in our understanding of the biologic basis of various neuroblastoma subtypes, recent improvements in the standard of care treatment of high-risk neuroblastoma and spotlight exciting new therapies for patients with relapsed and refractory neuroblastoma.

Guest Editor

Dr. Navin Pinto

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney
Departments of Child Health and Neurology, University of Missouri, 400
Keene Street, Columbia, MO 65211, USA
