Special Issue

Pediatric Otolaryngology-Expert Reviews and Advances

Message from the Guest Editor

The field of pediatric otolaryngology is under constant development. Our aim is to provide the latest clinical knowledge and scientific research, allowing us to excel in our professional growth and expand clinical application. This Special Issue wishes to highlight the current state of research on the most common ENT disorders in children. Topics of interest include—but are not limited to-adenoid hypertrophy/adenoiditis. rhinosinusitis (acute and chronic), otitis media with effusion, acute otitis media, obstructive sleep apnea, hearing loss, deafness, and speech disorders. Experts in the field are invited to submit manuscripts on all related topics. Original research papers, case reports, literature reviews, and systematic reviews are welcome. I look forward to receiving your contributions to this Special Issue, which will provide valuable insight into all aspects of current trends in pediatric otolaryngology.

About the Journal

Message from the Editor-in-Chief

You are invited to contribute a research article or comprehensive review for consideration and publication in *Children* (ISSN 2227-9067). *Children* is an open access journal—research articles, reviews, and other content are published online immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. The journal focuses on sharing clinical, epidemiological, and translational science relevant to children's health. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Paul R. Carney

Departments of Child Health and Neurology, University of Missouri, 400 Keene Street, Columbia, MO 65211, USA
