Advancements in Dendrimer Technology: From Molecular Biology Applications to Therapeutic Innovations

Message from the Guest Editor

It has been more than 50 years since the first dendrimers were disclosed in a patent application. For many years, the potential applications of dendrimers far outpaced the chemistry needed to realize them. In recent years, however, we have entered a phase where dendrimers are transitioning “from bench to bedside” in medicine and diagnostics. This Special Issue is dedicated to examining the current state of the art in this field and welcomes manuscripts covering all aspects of the potential use of dendrimers in molecular biology, broadly defined.

Guest Editor

Dr. Jørn Bolstad Christensen

Department of Chemistry, University of Copenhagen, Thorvaldsensvej 40, DK-1871 Frederiksberg C, Denmark

Deadline for manuscript submissions

31 December 2025

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Biomedical Science, University of Otago,
Christchurch, 2 Riccarton Avenue, P.O. Box 4345, Christchurch 8140,
New Zealand

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 17.8 days after
submission; acceptance to publication is undertaken in 2.7
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names are published annually in the journal.
