

## Special Issue

# Molecular Mechanisms in Plant Stress Tolerance

### Message from the Guest Editor

This Special Issue focuses on the molecular mechanisms that underpin plant stress tolerance, with an emphasis on how plants respond and adapt to a wide range of biotic and abiotic stressors, including drought, waterlogging, salinity, extreme temperatures, heavy metals, and pathogens. Plant stress tolerance involves sophisticated signaling networks mediated by phytohormones such as abscisic acid (ABA), salicylic acid (SA), jasmonic acid (JA), and ethylene, as well as reactive oxygen species (ROS) and secondary messengers like calcium ions and nitric oxide (NO). These signaling cascades orchestrate the regulation of stress-responsive genes through transcription factors (NAC, MYB, and WRKY) and non-coding RNAs (miRNAs and siRNAs). Epigenetic modifications, such as DNA methylation and histone modifications, contribute to stress memory and adaptive responses. This issue invites high-quality research, reviews, and perspectives that leverage advances in omics technologies to elucidate molecular pathways, offering innovative solutions for developing stress-resilient crops to address global climate challenges and ensure agricultural sustainability.

### Guest Editor

Dr. Sajid Ali

Department of Horticulture and Life Science, Yeungnam University,  
Gyeongsan 38541, Republic of Korea

### Deadline for manuscript submissions

31 January 2026

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Biomedical Science, University of Otago,  
Christchurch, 2 Riccarton Avenue, P.O. Box 4345, Christchurch 8140,  
New Zealand

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,  
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and  
other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 17.8 days after  
submission; acceptance to publication is undertaken in 2.7  
days (median values for papers published in this journal in  
the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and  
reviewer names are published annually in the journal.
