

Special Issue

Tumorigenesis and Tumor Microenvironment

Message from the Guest Editor

In this special issue, we seek articles and reviews that bring new insight advancing our understanding of Tumorigenesis and Tumor Microenvironment and bring together diverse perspectives and groundbreaking discoveries in the field. We invite researchers to submit articles and reviews with focus on emerging therapies, targeting the tumor microenvironment, and molecular pathways of tumorigenesis, with the aim to develop biomarkers, or early diagnostics or effective cancer treatments including, the role of immune cells, stromal cells, extracellular matrix, and signaling pathways in promoting or inhibiting tumor growth, progression, and metastasis are the target for this special issue.

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Molecular Medicine, University of Otago,
Christchurch 8140, New Zealand

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC, PubMed, Embase, CAPlus / SciFinder, FSTA, AGRIS, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and reviewer names are published annually in the journal.
