

Special Issue

Molecular Mechanisms Underlying Fatty Liver Disease: From Pathogenesis to Treatment

Message from the Guest Editor

We are pleased to announce the call for papers for a Special Issue in *Current Issues in Molecular Biology* focused on exploring the cellular and molecular mechanisms that are involved in the development and progression of both non-alcoholic fatty liver disease (NAFLD) and alcohol-associated liver disease (ALD).

NAFLD and ALD are significant contributors to the global burden of liver disease. NAFLD, often associated with metabolic syndrome, obesity, diabetes, and cardiovascular disease, has emerged as the most common cause of chronic liver disease worldwide.

We welcome articles that investigate or summarize the cellular and molecular mechanisms that contribute to the pathogenesis and progression of NAFLD, NASH, ALD, and related diseases. We encourage researchers to explore a broad range of topics, including, but not limited to, impaired lipid metabolism, inflammation, oxidative stress, insulin resistance, genetic/epigenetic modifications, and the interplay between alcohol metabolism and liver injury.

Guest Editor

Dr. Haibo Dong

Center for Translational Biomedical Research, University of North Carolina at Greensboro, North Carolina Research Campus, Kannapolis, NC 28081, USA

Deadline for manuscript submissions

closed (31 October 2024)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Biomedical Science, University of Otago,
Christchurch, 2 Riccarton Avenue, P.O. Box 4345, Christchurch 8140,
New Zealand

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 17.8 days after
submission; acceptance to publication is undertaken in 2.7
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names are published annually in the journal.
