

## Special Issue

# Molecular Mechanisms of Gut Microbiota in Health, Immunity and Disease

### Message from the Guest Editor

The gut microbiome, a dynamic ecosystem of trillions of microorganisms, plays a vital role in human health and disease. Through complex molecular mechanisms, the microbiota influence digestion, modulate immune responses, affect metabolism, and interact with the central nervous system via the gut-brain axis. Dysbiosis, or microbial imbalance, is associated with numerous chronic conditions, highlighting the need for deeper insights into microbiota-host interactions. This Special Issue seeks to unravel the molecular crosstalk between gut microorganisms and their host, exploring the microbiome's contributions to homeostasis, disease pathogenesis, and potential therapeutic strategies. Submissions are invited on topics including, but not limited to:

- Gut microbiota and host health;
- Microbiota in disease pathogenesis;
- Immune modulation by microbiota;
- Microbiota-driven therapeutics;
- Multi-omics and advanced methodologies;
- Environmental and lifestyle impacts on the microbiome.

We welcome innovative studies that advance our understanding of the microbiome and its implications for health and disease.

---

### Guest Editor

Dr. Ahmad Ud Din

Plants for Human Health Institute, Department of Food Bioprocessing and Nutrition Sciences, North Carolina State University, 600 Laureate Way, Kannapolis, NC 28081, USA

---

### Deadline for manuscript submissions

31 October 2025

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Biomedical Science, University of Otago,  
Christchurch, 2 Riccarton Avenue, P.O. Box 4345, Christchurch 8140,  
New Zealand

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,  
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and  
other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 17.8 days after  
submission; acceptance to publication is undertaken in 2.7  
days (median values for papers published in this journal in  
the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and  
reviewer names are published annually in the journal.
