

## Special Issue

# Molecular Insights into Skeletal Muscle Homeostasis and Metabolism

### Message from the Guest Editors

Homeostasis is the ability of muscular tissue to maintain a stable and constant internal environment. Metabolism plays a crucial role in maintaining a good and correct functioning of the skeletal muscle. In pathological conditions, the homeostasis and metabolism of skeletal muscle are severely affected, and we believe that the papers in this Special Issue, addressing specific aspects of these processes, will help researchers to gather a better understanding of underlying mechanisms and signaling pathways, to highlight more appropriate therapeutic approaches to improve muscle physiology to counteract various myopathology and more. Potential topics include:

- Niche satellite cells and cells communication in muscle homeostasis and metabolism dysregulations;
- Myofiber regeneration/repair in different pathological conditions;
- Muscle wasting disorders (myopathies, sarcopenia, cachexia, and others);
- Skeletal muscle inflammatory response;
- Exercise in skeletal muscle mass maintenance, role of myokines, and other aspects;
- Cytoplasmic calcium homeostasis dysregulation, mitochondrion response, and endoplasmic reticulum stress.

### Guest Editors

Dr. Laura Cristina Ceafalan

1. Victor Babes National Institute of Pathology, 050096 Bucharest, Romania
2. Faculty of Medicine, Carol Davila University of Medicine and Pharmacy, 050474 Bucharest, Romania

Dr. Emilia Manole

National Institute of Pathology "Victor Babes", 050096 Bucharest, Romania

### Deadline for manuscript submissions

closed (30 June 2024)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. Madhav Bhatia

Department of Pathology and Biomedical Science, University of Otago,  
Christchurch, 2 Riccarton Avenue, P.O. Box 4345, Christchurch 8140,  
New Zealand

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,  
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and  
other databases.

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is  
provided to authors approximately 17.8 days after  
submission; acceptance to publication is undertaken in 2.7  
days (median values for papers published in this journal in  
the first half of 2025).

##### Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and  
reviewer names are published annually in the journal.
