

Special Issue

Molecular Studies of Female Pregnancy Disorders

Message from the Guest Editor

As an experienced researcher in women's health and pregnancy disorders, we would like to invite you to submit a manuscript to a Special Issue in *Current Issues in Molecular Biology* about Molecular Studies of Female Pregnancy Disorders. *Current Issues in Molecular Biology* is an international, scientific, peer-reviewed, open access journal on molecular biology, published monthly online. As , we would like to develop an Issue that considers articles related to the pathophysiology, prevention, diagnosis, and treatment of pregnancy disorders and will serve as an international platform for sharing laboratory and clinical findings by offering a high-visibility forum for new insights and discussions among scientists and physicians. The journal has a distinguished Editorial Board with extensive academic qualifications, ensuring that the journal maintains high scientific standards and has a broad international coverage. With this in mind, we invite you to submit your next research article for publication in the journal. We look forward to receiving the valuable contribution from the researchers and academicians all around the world.

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PMC,
PubMed, Embase, CAPus / SciFinder, FSTA, AGRIS, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 17.8 days after
submission; acceptance to publication is undertaken in 2.7
days (median values for papers published in this journal in
the first half of 2025).

Recognition of Reviewers:

APC discount vouchers, optional signed peer review, and
reviewer names are published annually in the journal.
