

Special Issue

Clean Energy Technologies for Decarbonization and Environmental Sustainability

Message from the Guest Editor

Achieving sustainable development is a complex issue that must unify different activities, improvements, technological innovation, legislation adaptation, change in public perception, etc. The energy sector is one of the key industries that must be influenced in order to achieve successful transformation. Full decarbonization of the energy sector still faces many challenges. The development of clean energy technologies is of great importance for the implementation of the environmental pillar of sustainability. This Special Issue welcomes research and review papers dedicated to all aspects of environmental sustainability, clean energy technologies and advances in decarbonization.

About the Journal

Message from the Editor-in-Chief

Clean Technologies (ISSN 2571-8797) is an international, open access journal of novel scientific research on technology development aimed at reducing the environmental impact of human activities. *Clean Technologies* publishes reviews, regular research papers, communications and short notes which show a significant advance in the development of sustainable technology that reduces energy consumption, environmental pollution and/or the use of water and nonrenewable resources. Our aim is to encourage scientists to publish their experimental and theoretical research in detail as open access, serving a trustable base of advance for the scientific community.

Editor-in-Chief

Prof. Dr. Patricia Luis Alconero
Materials & Process Engineering, UCLouvain, Place Sainte Barbe 2,
1348 Louvain-la-Neuve, Belgium

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, AGRIS, RePEc, and other databases.

Journal Rank:

JCR - Q2 (Environmental Sciences) / CiteScore - Q1
(Environmental Science (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20 days after submission; acceptance to publication is undertaken in 10.6 days (median values for papers published in this journal in the second half of 2025).
